

FabConnectHer Girls - World of STEAM Pre tests form answers

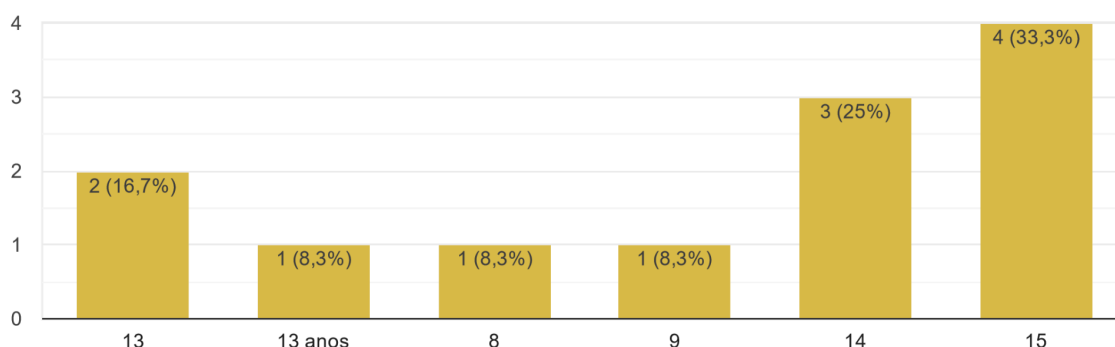

This form is to help create activities for the FabConnectHer project. Did you know that there are few girls and women in science? FabConnectHer wants to change that by connecting Fab Labs to schools and creating practical and interactive activities related to STEAM (Science, Technology, Engineering, Art and Mathematics). This project aims to develop activities with girls/girls aged between 8 and 15.

A Fab Lab (Digital Fabrication Laboratory) is a digital fabrication space with advanced tools and technologies such as 3D printers, laser cutters and milling machines, where anyone can invent and develop their projects.

The activities developed will aim to link the different disciplines and the technologies available in a Fab Lab!

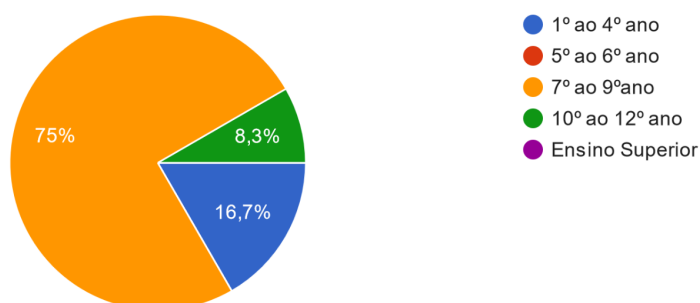

Idade/age

12 respostas

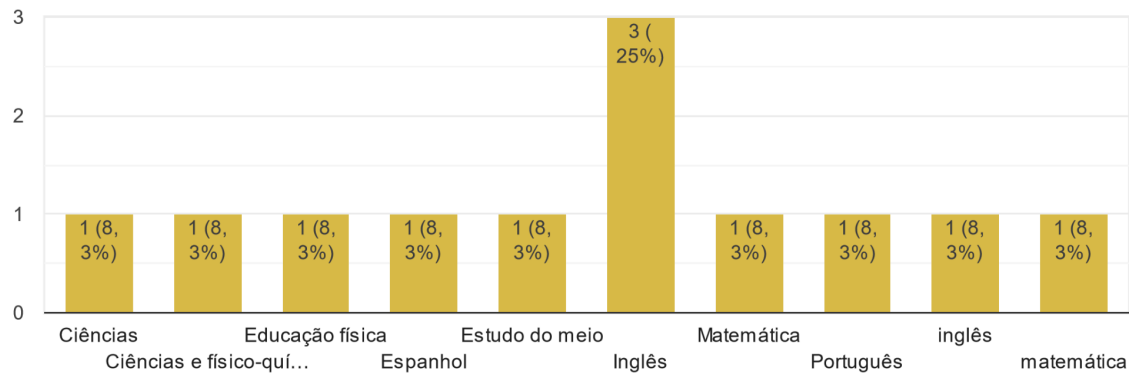

Nível de Ensino/level of education

12 respostas

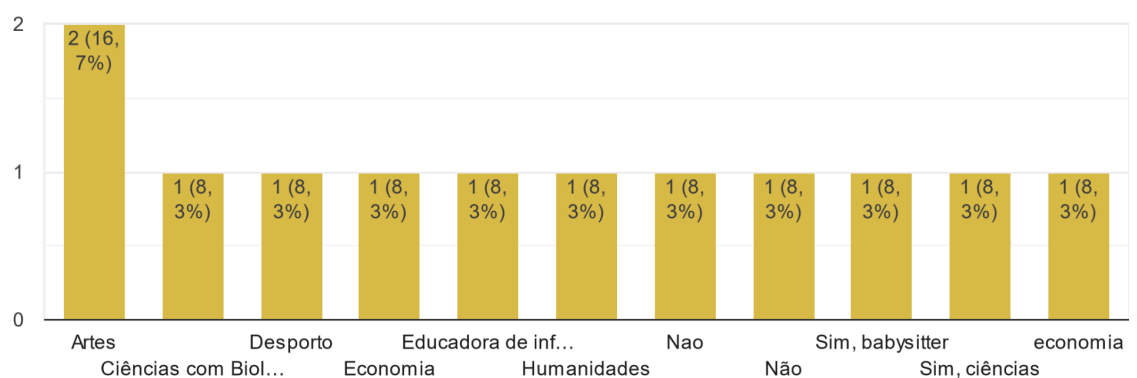

Qual é a tua disciplina preferida?/ What's your favourite subject?

12 respostas

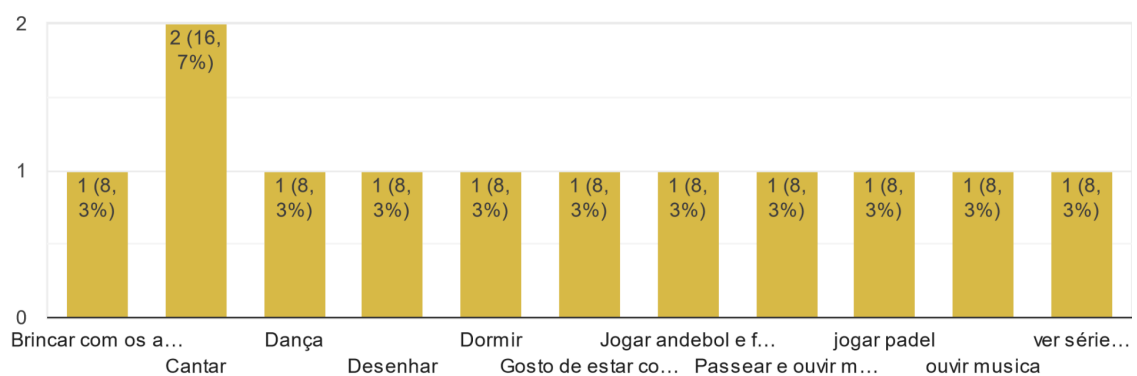

Já escolheste uma área de ensino? Qual?/ Have you chosen a teaching field? Which area?

12 respostas

O que mais gostas de fazer nos teus tempos livres?/ What do you most enjoy doing in your free time?

12 respostas

O que gostavas de aprender?/ Is there anything you would like to learn?

Learning to make conversation with strangers

Piano

animals/humans

Play volleyball

I'd like to learn how to look after babies

Volleyball

Taekwondo

How to organize finances in the future

playing the viola

To be autonomous
